

How does it *work*

How would you feel about a design day totally dedicated to you to get a few things ticked off your list?

Have you started some design work yourself and got stuck with the look of it? Do you need some quick social assets? Need an existing brand merch mockup or maybe a flyer creating?

After a quick call in the morning to discuss what's needed, a dedicated day just for you could be what you need.

Schedule

- Virtual call in the morning to understand design needs.

- Designs are started.

- Check in part way throughout the day to get approval on the style and layout.

- Designs are outputted and sent to you in relevant formats.
